6. World's eighth most polluted country according to Swiss firm IQAir report: India (March 16, 2023)

Swiss firm IQAir Report has released its 'World Air Quality Report'

Swiss firm IQAir Report has released its '**World Air Quality Report**', according to which India has moved up to the eighth position in the list of world's most polluted countries in 2022 as compared to **fifth position last year**.

An Overview of the News

- According to this report, **39 of the world's 50 most polluted cities are in India**.
- The top **10 most polluted countries** include **Chad, Iraq, Pakistan, Bahrain, Bangladesh, Burkina Faso, Kuwait, India, Egypt and Tajikistan**.
- According to it, the **transport sector is responsible for 20-35% of PM 2.5 pollution in India**.
- **Lahore in Pakistan and Hotan in China** are the **two most polluted cities in the world**, followed by **Bhiwadi in Rajasthan at the third place and Delhi at the fourth place**.
- **India** has been placed at the **eighth position** in the latest report with **PM2.5 level at 53.3**.
- According to this report, **India and Pakistan have the worst air quality in the Central and South Asian region**. About 60% of the population lives in areas where the concentration of PM2.5 particles is seven times higher than the WHO recommended levels.
- The report concludes that globally, one in 10 people live in an area where air pollution is a health risk.

About Air Pollution

- Air pollution can have significant impacts on both human health and the environment.
- The effects of air pollution vary depending on the type and concentration of pollutants, as well as the duration and frequency of exposure.
- On human health, air pollution can cause respiratory problems, such as asthma, chronic bronchitis, and lung cancer.
- It can also lead to cardiovascular diseases, stroke, and premature death.

- The elderly, children, and people with pre-existing medical conditions are particularly vulnerable to the health effects of air pollution.
- Air pollution also affects the environment, contributing to climate change and damaging ecosystems.
- Acid rain, for example, can harm forests, lakes, and aquatic life. Ground-level ozone, which is formed by the reaction of pollutants in the atmosphere, can damage crops and reduce agricultural yields.
- Air pollution can also contribute to global warming by trapping heat in the atmosphere and contributing to the greenhouse effect.

7. Uttarakhand's Rudraprayag, Tehri top landslide index: ISRO report (March 12, 2023)

According to the recently released '**Landslide Atlas**' report of **ISRO's Hyderabad-based National Remote Sensing Center (NRSC)**, the two hilly districts of Uttarakhand, **Rudraprayag and Tehri**, are **most prone to landslides**.

An overview of the news

- The National Remote Sensing Center has released a list of **147 districts** prone to landslides across the country, in which **Rudraprayag is at number one and Tehri at number two**.
- Kerala's **Thrissur and Palakkad** districts are at **3rd and 5th spots** respectively.
- **Rajouri and Pulwama (J&K), Kozhikode and Malappuram (Kerala), and South Sikkim and East Sikkim (Sikkim)** are the other high risk districts.
- Rudraprayag, which tops the list, is also home to the famous **Kedarnath shrine**, which witnessed a devastating disaster in 2013 that killed thousands.
- **Sirobgarh and Narkota areas of Rudraprayag** are most affected by landslides. Landslides are reported here throughout the year.

Landslide Prone Districts

- According to the District Emergency Operation Centre, **Rudraprayag has 32 old landslide zones**, the maximum of which are located on **NH-107**.
- **Tehri district** has over two dozen landslide zones, including **Totaghati** which has been identified as a "**very chronic landslide site**".
- Chamoli district, which recently came into limelight due to landslides in **Joshimath**, is at **number 19** among the districts at risk of landslides.
- As per the State Emergency Operation Center data, between **2018 and 2021, 253 landslides occurred in Uttarakhand**, resulting in 127 deaths.
- Over **11,000 landslides** were recorded in Uttarakhand in the last two decades.

- Among these, maximum landslide areas fall on **Rishikesh-Rudraprayag-Chamoli-Badrinath, Rudraprayag-Ukhimath-Kedarnath, Chamoli-Ukhimath, Rishikesh-Uttarkashi-Gangotri route.**

8. Mumbai's famous "vada pav" ranked 13th in the list of best sandwiches in the world (March 5, 2023)

Mumbai's famous street food "**vada pav**" has been **ranked number 13** on a list of the **top 50 best rated sandwiches in the world.**

An overview of the news

- The list is published by **TasteAtlas**, a Croatian-based food travel guide website.
- **Turkey's tombik sandwich tops the list.** Second is **Peru's Butifara Sandwich** and **Argentina's De Lomo Sandwich is third.**

About 'Vada Pav'

- Vada pav street food is said to have originated from a street vendor named **Ashok Vaidya**, who operated near Dadar railway station in the **1960s and 1970s.**
- Ashoka thought of a way to satisfy the hunger of the starving workers, and concluded that the ideal dish should be portable, inexpensive, and easy to prepare.
- Ashok made Vada Pav and its popularity skyrocketed.
- Traditionally vada pav is made of spiced mashed potatoes, deep fried in chickpea batter and pav, which is also known as white bread roll.

9. India ranks 42 in 55 countries on International IP Index (Feb. 26, 2023)

India has been ranked 42 out of 55 countries in the latest **International IP Index report** by the **US Chamber of Commerce.**

An overview of the news

- The **United States ranks first in the 2023 index, followed by the UK and France.**
- According to the report, India's size and economic influence is **growing on the world stage.**
- India is poised to **become a leader for emerging markets** seeking to transform their economies through IP-driven innovation.
- India has taken steps to **improve enforcement against copyright-infringement** and provides a best-in-class framework to promote better understanding and use of IP assets.

- Creating a new model to address long-standing flaws in the IP framework will be critical to India's continued economic growth, according to the report.
- Continued strong crackdown on copyright piracy through issuance of "dynamic" injunction orders, improved crackdown on online trademark infringement and damages, and generous R&D and IP-based tax incentives are some of India's strong points.

India's Weaknesses

- One of India's key areas of weakness is the 2021 **dissolution of the IP Appellate Board**.
- **Limited framework for protection of biopharmaceutical IP rights and patentability** requirements that are outside international standards are other weaknesses in India.

About International Intellectual Property Index

- It is an annual report compiled by the **US Chambers of Commerce**.
- It evaluates the protection of **IP rights in the world's 55 major economies**, which represent approximately **90% of global GDP**.
- The report covers topics ranging from patent and copyright laws to the potential for monetizing IP assets and the ratification of international agreements.
- The index aims to help guide nations towards a **brighter economic future marked by greater innovation, creativity and competitiveness**.

Intellectual Property Rights

- Intellectual property rights are the rights given to persons/companies over the **creations of their minds**.
- They usually give the creator an exclusive right over the use of his/her creation for a certain period of time.
- For e.g. **Development of a new software or discovery of new medicine**.

10. Global Quality Infrastructure Index (GQII) 2021 (Feb. 11, 2023)

India's overall QI system ranking stood at 10th position in the recently released **Global Quality Infrastructure Index (GQII) 2021**.

An overview of the news:

- **India's national accreditation system** under the Quality Council of India (QCI) has been **ranked 5th**.
- While it has been **ranked 9th in the standardisation system** and **21st in the world in the metrology system (under NPL-CSIR)**.

• The GQII lists 184 countries in the world based on the Quality of Infrastructure (QI).

Ranking of other countries:

- **Germany has topped the list.**
- It was followed by China, USA, UK, Japan and France at the second, third, fourth, fifth and sixth places respectively.

Quality Council of India (QCI):

- The Quality Council of India (QCI) was established in 1996 as a national body for accreditation.
- QCI is a non-profit organisation registered under the Societies Registration Act XXI of the year 1860.
- Headquarters - New Delhi
- Chairman - Jakshay Shah
- General Secretary - Dr. Ravi P. Singh
