1. International Day of Peace - 21 September (Sept. 21, 2023)

The International Day of Peace (IDP) is observed every year on 21 September.

An Overview of the News

- The IDP was established by the United Nations (UN) to emphasize the global commitment to peace, non-violence, and conflict resolution.

The theme for 2023:

- The theme of the 2023 IDP is "**Action for Peace: Our Ambition for the #GlobalGoals**".
- This theme emphasizes both individual and collective responsibilities in promoting peace.
- To ensure the success of these goals, it calls for the participation of various actors, including the world's 1.2 billion youth.

The topic focuses on three key areas:

- Fighting inequality
- Taking action on climate change
- Promote and protect human rights

History of International Peace Day:-

- **United Nations Resolution 36/67 (1981):** The International Day of Peace began with the adoption of United Nations Resolution 36/67 on September 30, 1981.
- **Selection of the third Tuesday of September:** Following a United Nations resolution, it was decided that the International Day of Peace would be celebrated annually on the third Tuesday of September.
- **Inaugural Ceremony (1982):** The first official observance of the International Day of Peace took place on 21 September 1982.
- **Official designation of September 21 (2001):** An important development in the history of this day occurred in 2001 when September 21 was officially established as the International Day of Peace.

- International Red Panda Day aims to raise awareness of the importance of red panda conservation and encourage people to take action to protect them.
- IRPD 2022 took place on September 17, 2022, while IRPD 2024 will be celebrated on September 21, 2024.
- Red pandas are found mainly in the mountainous forests of Nepal, India, Bhutan, China, and Myanmar.
- Red Panda Network (RPN) was founded in 2007 and was founded by Brian Williams.
- RPN is headquartered in Oregon, United States of America (USA).

3. World Ozone Day - 16 September (Sept. 16, 2023)

World Ozone Day, also known as the International Day for the Preservation of the Ozone Layer, is observed annually on 16 September.

An Overview of the News

- The ozone layer is composed primarily of trioxxygen molecules (O₃) and acts as a protective shield against harmful ultraviolet (UV) rays from the Sun.
- The theme of World Ozone Day 2023 is "**Montreal Protocol: Recovering the ozone layer and mitigating climate change**".
- This theme underlines the important role of the Montreal Protocol not only in protecting the ozone layer but also in addressing and mitigating climate change.

History of World Ozone Day

- **On September 16, 1987**, a landmark environmental treaty called the Montreal Protocol was established in Montreal, Canada.
- The Montreal Protocol represents an important moment in global efforts to address the depletion of the ozone layer.
- Its primary focus was **on regulating ozone-depleting substances (ODS), which included substances such as chlorofluorocarbons (CFCs), halons, carbon tetrachloride, and methyl chloroform.**

4. International Democracy Day - 15 September (Sept. 15, 2023)

International Democracy Day is celebrated every year on 15 September.

An Overview of the News

- International Democracy Day emphasizes the importance of democracy, considering it not only a fundamental human right but also a vital element in promoting good governance and peace.
- The day reminds us of the important role of democracy in shaping societies globally.

- In **2023, the theme** of International Democracy Day focuses on "**Empowering the Next Generation**", highlighting the important contribution of young individuals in promoting democracy.
- Acknowledging and promoting youth participation in democratic processes is a fundamental element for safeguarding the future of democracy.

History of International Democracy Day:-

- It has its origins in the Universal Declaration on Democracy, which was adopted by the Inter-Parliamentary Union (IPU) on September 15, 1997.
- The IPU is an international organization consisting of national parliaments around the world.
- Qatar took a leading role in advocating the establishment of International Democracy Day following the adoption of the Universal Declaration on Democracy.
- On November 8, 2007, the United Nations General Assembly (UNGA) took an important step by unanimously adopting a resolution entitled "Support by the United Nations System of Governments' Efforts to Promote and Consolidate New or Restored Democracies". This resolution formalized the International Day of Democracy.

About Democracy

- It is a term that originates from the Greek words 'demos', which refers to a citizen of a city-state, and 'kratos', which refers to the concept of power or government.
- Democracy is considered a fundamental value within the United Nations. It is built on key principles, including:
 - **Respect for human rights:** Democracy involves a commitment to upholding the rights of individuals.
 - **Fundamental Freedom:** It involves the protection of basic freedoms.
 - **Periodic and genuine elections:** Democracy involves the practice of holding honest and legitimate elections on a regular basis.
 - **Universal suffrage:** Ensures that all eligible citizens have the right to vote.
- Democracy is a system that gives citizens the right to choose their leaders.
- It encourages active participation of citizens in the processes that determine decisions affecting their lives.
